

AgriZisa[®]

'Zisa' from the IsiXhosa word meaning "bring"

ABOUT AGRIZISA

A **Dynamic** web application that facilitates the relationship between small-scale growers through the use of an agricultural community based **food hub**

WHY CHOOSE US?

- 🌱 **Designed** specifically for South Africa's informal fresh produce market environment
- 🌱 **Developed** to run completely platform agnostic
- 🌱 **No need** for specific hardware

Facilitating, promoting and building **food security** whilst bridging the socio economic gap of **small scale growers**

USERS

Small scale growers, government departments, food hubs, buyers, and fresh produce markets

PROCESSES

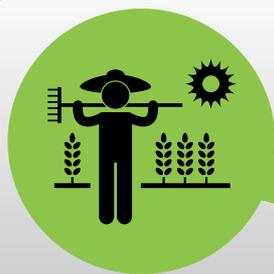

Design, optimization and implementation of processes and workflows

TECHNOLOGY

Browser based cloud solution: Google Chrome, Microsoft edge & Mozilla Firefox
